

1

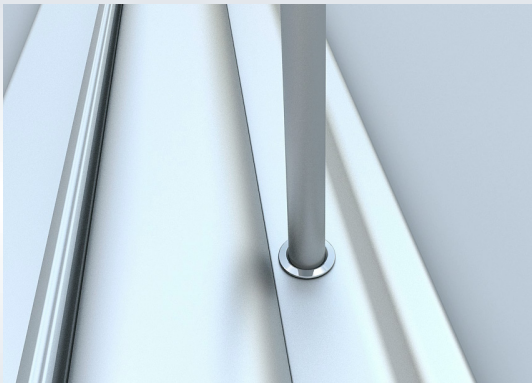

Take the parts out of the bag.

**2**

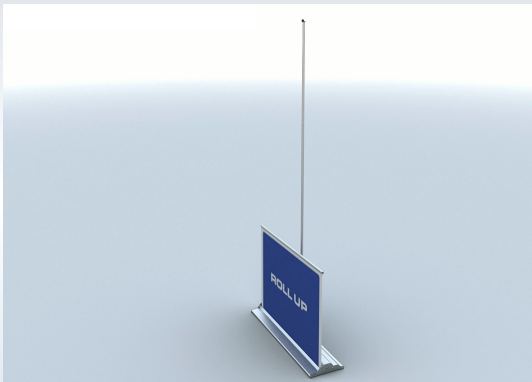

Unfold the 3-part supporting rod. Make sure that the parts click in each other.

**3**

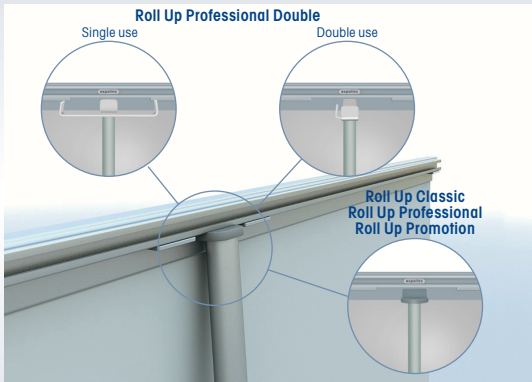

Place the supporting rod into the hole of the cassette.

**4**

**Pull up the graphic panel.**

5

Attach the top profile to the top fastener of the supporting rod.

6

**Verify that the system is even. READY!**

Adjust, if needed, with the adjustable feet underneath the stand. (Not Roll Up Promotion)
